

HELP PROTECT THE ENDANGERED SPECIES ACT! THURSDAY OCTOBER 10 DAY OF ACTION:

On Thursday, October 10th, Center for Biological Diversity activist supporters will deliver more than 500,000 petition signatures supporting the Endangered Species Act to more than 70 in-district congressional offices in 25 different states. In support of our partners and with our love for the ESA, Broads are hosting a Congressional call-in day of action!

The Trump administration gutted the Endangered Species Act beyond recognition. Over the past 40 years, the Act has become the single most important law for saving thousands of animals and plants from extinction, like grizzly bears, wolves, sea turtles and bald eagles.

Call your representative in Congress today to urge them to cosponsor H.R. 4348 — the PAW and FIN Conservation Act, to repeal Trump's regulations.

Script support for call in: Don't forget, be succinct, tell your story, and thank your representatives:

Hi, my name is _____ and I am a constituent of Representative _____.

I'm calling today to ask the Representative to cosponsor H.R. 4348 — the PAW and FIN Conservation Act, to repeal Trump's gutting of the Endangered Species Act.

I care about this act and support it all the way because (.....) The changes Trump made to the regulations severely weaken protection for imperiled species across the country. This is unprecedented and irresponsible.

For animals like wolverines and monarch butterflies, this could be the beginning of the end. The Endangered Species Act is a landmark law and has saved thousands of animals and plants from extinction, including grizzly bears, gray wolves, sea turtles and bald eagles.

Please — push politics aside and work with your colleagues to immediately reverse this decision by cosponsoring the PAW and FIN Conservation Act.

Thank you for your time.

Please let Broads know if you've taken action!
