

Overlap Grazing Scores

Manti - La Sal National Forest

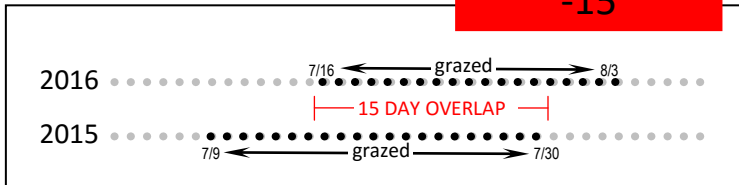

← 2007–2016 →

Moab – Monticello District

A negative score indicates that the pastures in that allotment were – on average – grazed on the same calendar days as the year before.

Example of a negative score:

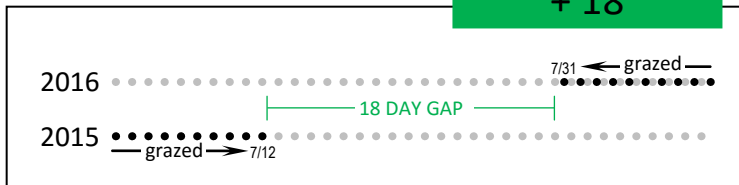

-15

A positive score indicates that the pastures in that allotment were not – on average – grazed on the same calendar days as the year before.

Example of a positive score:

+18
